Baylor College

Female Dormitory

Stephanie Kinghorn and Dr. John Griggs of the Washington County Historical Commission have met with Trey Crumpton (Baylor University Mayborn Museum) to begin restoration work on the Baylor College Female Dormitory remains. The kitchen and cistern which were located behind the dormitory continue to hold fascination for visitors as the structure continues to deteriorate. The first phase includes much-needed fencing and signage along with stabilizing the stone structure. Later phases include excavation of the old cistern, and reconstructing the old kitchen as much as possible. The old buildings are located in Old Baylor Park in Independence.
